Mission Statement

The Office of Admissions is dedicated to admitting a diverse group of highly-qualified students through recruitment efforts, campus tours and events, admission processing, and transitioning students into the Eagle family.

Goals

Our goals include executing the integrity of the admissions process regarding information about the student and our University using fair and apparent policies and procedures; improving retention by attracting those who are well-qualified and ready to demonstrate academic excellence; evaluating data processing to ensure information is accurate and complete; and assisting students and parents with all phases of the admission process.

Vision

We aspire to be a nationally recognized university that maintains a vital part in enriching student's lives through lifelong learning opportunities. We are committed to working collaboratively and cooperatively with our colleagues on and off campus to ensure that the success of our mission, goals, and vision supports high standards and excellence in academic achievement.
