

BBA-MANAGEMENT CONCENTRATION

The Management concentration focuses on developing students' leadership skills. Students learn how to build strategic plans, align resources to run businesses, apply business law, and make businesses profitable. The critical skills of managing a business are taught and developed within the student to give them the confidence to lead people through the competitive landscape demanded in today's business world.

In the Texas A&M University-Texarkana College of Business, Engineering, and Technology, we take great pride in educating and graduating the future business leaders of our world, who leave our campus with the skills and qualities sought by employers throughout the global marketplace.

Degree Requirements

Students should refer to their DegreeWorks degree audit in their Web for Students account for more information regarding their degree requirements.
