

CERTIFICATE IN COMPUTER AIDED DESIGN FOR ENGINEERS

The Computer-Aided Design (CAD) for Engineers Certificate program is a specialized program that equips students with essential skills and knowledge to excel in Computer-Aided Design, Drafting, and Analysis for engineering applications. It ensures their readiness for a competitive workforce.

Admission Requirements and Guidelines:

1. Admission Criteria:

- Be currently enrolled in a regionally accredited undergraduate program in engineering, science, or technology and in good academic standing,
- or hold a degree from an associate's, bachelor's, or graduate-level program in engineering, science, or technology.

2. Grade Requirement:

- Earn a grade of "C" or higher in each certificate course to satisfy program requirements.

3. Course Transfer Policy:

- No external courses may be transferred into the certificate program.

Requirements for the Certificate in Computer-Aided Design for Engineers

Code	Title	Hours
ENGR 304	Engineering Graphics I	3
ENGR 440	Computer Aided Design of Mechanical Components	3
MEEN 401	Finite Element Analysis in Mechanical Design	3
Total Hours		9
