

BACHELOR OF SCIENCE-KINESIOLOGY

Kinesiology is the study of human movement and physical activity as well as the overlapping mechanisms of human biomechanical, physiological, and psychological function. The Bachelor of Science in Kinesiology at A&M-Texarkana allows students to study human movement and physical activity and focuses on addressing human health problems associated with human performance, physical rehabilitation, and sport and exercise psychology.

The program prepares students for careers in clinical, fitness, or educational settings or in research and industrial environments with population groups including athletes, children, and the elderly, and with persons with disability, injury, or disease.

Kinesiology Tracks

- Coaching and Administration Track (<http://catalog.tamut.edu/undergraduate-studies/nursing/health-professions/bs-kinesiology/coaching-administration/>)
- General Track (<http://catalog.tamut.edu/undergraduate-studies/nursing/health-professions/bs-kinesiology/general/>)
- Pre-Therapy (<http://catalog.tamut.edu/undergraduate-studies/nursing/health-professions/bs-kinesiology/pre-therapy/>)

Teaching Certifications

- BS in Kinesiology Physical Education EC-12 (<http://catalog.tamut.edu/undergraduate-studies/arts-sciences-education/education/kinesiology-physical-education-ec-12/>)
